Anthony De Vera Jr

Website Developer | AI Specialist | Automation and SOP Implementation

Makati City, Philippines | +63 991 474 6063 | deverajranthony@gmail.com | View my portfolio

Summary

Website developer and AI specialist who builds websites, AI agents, and automations that cut manual work for growing businesses. I have delivered projects for clients in Singapore, Australia, and the UAE across healthcare, travel, wellness, and sports. I am strongest at turning messy processes into clear SOPs and working systems using Claude Code, Respond.io, WordPress, and Shopify.

Core Skills

- **Web Development:** WordPress, Shopify themes, native HTML and CSS, GitHub, Vercel, site migrations
- **API and Form Integrations:** connecting apps through APIs, and linking website forms to CRMs, email platforms, and automations
- **Domains and Hosting:** domain setup, transfers, DNS, and redirects across different registrars and hosting providers
- **AI and Automation:** Claude Code, Claude Skills, Respond.io AI Agents, prompt engineering, Zapier, Make.com, n8n
- **Operations and Process:** SOP development, process improvement, CRM setup and integrations, project management
- **Marketing:** funnel design, email marketing, social media, paid campaigns, Canva, copywriting

Work Experience

Zelixlabs | Singapore (Remote)

Website Developer and Project Manager

- Built and launched client websites end to end on WordPress, Shopify, and static HTML, using Claude Code, GitHub, and Vercel.
- Delivered compliant websites for healthcare and medical professionals under strict country-specific publishing rules.
- Handled domain migrations, redirects, and DNS setup so launches went live without downtime.
- Created Claude Skills and improved internal workflows, making the team's builds faster and more consistent.

Respond.io Expert and AI Specialist

- Designed and deployed Respond.io AI Agents that give clients 24/7 automated customer support.
- Gathered client requirements and shaped each agent around their services, workflows, and customer needs.
- Connected agents to websites and social channels, with workflows, knowledge bases, and automation rules behind them.
- Ran broadcast campaigns and wrote SOPs for AI processes beyond Respond.io.

Natural ArtForm | Australia and USA (Remote)

Custom Shopify Store Developer and Store Manager

- Managed the brand's Shopify store across the Australian and US markets, shipping theme updates through Shopify CLI and testing every release live on desktop and mobile.
- Led the rebrand of the ALLEVIATE range to NOMAD, covering renamed products with URL redirects, shorter product pages, a mobile sticky Add to Cart bar, a new homepage hero video, and updated social share previews.
- Launched a US pre-sale with pre-order notes saved on each order, then moved it to regular sales once stock landed, setting up market pricing, catalogs and shipping profiles for each country.
- Set up gift cards and split the store bundle into two clear products, and worked with Shopify Support to resolve a market setup issue.
- Reviewed the site against advertising compliance rules, removing therapeutic claims, fixing broken policy links and cleaning up duplicate SEO tags.
- Rebuilt the blog with topic filters the team can manage without code, and managed Klaviyo sign-up forms and welcome discount rules.

- Used AI agents to carry out Shopify and Klaviyo admin tasks from step-by-step briefs, checking every result on the live store before handing it over.

NomuHub | Travel Company, UAE (Remote)

Admin Support & CRM Manager and AI System Process Implementation

- Built a custom CRM that connects Meta Ads, WeTravel bookings, Monday.com, ManyChat, and other platforms through their APIs into one system.
- Turned manual audits and processes into fully automated systems using API connections, custom CRM builds, and automations.
- Automated Monday.com workflows, including a live Weekly Agenda board that pulls tasks from Marketing and Operations and moves completed items on its own.
- Built operations, compliance, survey, and Meta Ads dashboards, including compliance trackers with automatic due dates and overdue alerts.
- Created AI tools that turn meeting recordings into Minutes of Meeting and Monday.com task lists, plus Claude Skills for recurring work.
- Improved WhatsApp inquiry automation in ManyChat with the sales team to raise lead to booking conversion.
- Managed WeTravel bookings, payment links, and visa checks, WordPress trip listings, feedback surveys, and B2B invoicing.

Optimum Metabolic Health | Australia (Remote)

WordPress Developer (Health and Wellness)

- Designed funnels and website templates with consistent branding and clean, mobile-friendly layouts.
- Created logos, banners, and icons, and maintained the site with Mailchimp and CRM integrations.

Paddle Fit Perth | Australia (Remote)

Social Media Manager (Sports)

- Planned and produced content for Instagram, Facebook, and LinkedIn, including short videos and photo edits.
- Ran paid campaigns for lead generation and optimized them using Google Analytics and Facebook Insights.

Tools

- **Websites:** WordPress, Shopify, Squarespace, Wix, Weebly, native HTML, Systeme.io, Zoho
- **CRM and Automation:** HubSpot, Zoho CRM, Pipedrive, Keap, Monday.com, WeTravel, Respond.io, ManyChat, Zapier, Make.com, n8n, Mailchimp, MailerLite, Klaviyo, Meta Business Suite
- **Hosting, Domains and Deployment:** GitHub, Vercel, Crazy Domains, Squarespace Domains, plus other registrars and hosts

Education

Bachelor of Science in Electronics and Communications Engineering

Polytechnic University of the Philippines, Maragondon Campus | 2020 to 2024
